TS2_L2_MAGIC_BDC-16SPS	Public (1 file)	DraftInReview (07/22/2026)		1 out of 169 cdfs in public folder
TS2_L2_MSC_BAC	Public	DraftInReview (05/22/2026)		none
TS1_L3_ACE_PITCH-ANGLE-DIST	Public	NoDraft*		no master
TS2_L3_ACE_PITCH-ANGLE-DIST	Public	DraftInReview (07/22/2026)		no master
# TRACERS DATA on the SPDF				
#				
# Column Header Description				
#				
# LOGICAL_SOURCE				
# dataset LOGICAL_SOURCE=<ProductKey>				
#				
# SPDF status				
# NoCDFexample: SPDF has not seen an example CDF				
# NoUpdatedCDFexample: SPDF saw earlier draft CDF; but understands that the CDF is being modified				
# Download: Curation Scientist has sent a request to the SPDF team to download the data and place in TestView.				
# TestView: CDAWEB plotting not available; but data CDFs can be downloaded from SPDF by the Public				
# TestView1: Data in TestView; requires permission from the Instrument Lead to make available to public; CDF data cannot be downloaded by Public				
# MakePublic: Curaton Scientist requested that the SPDF team move the data out of testview; and make completely public				
# Public: Data for download and CDAWEB plotting tools are available to public				
#				
# SPASE STATUS				
# NoDraft: draft to be created				
# DraftInReview: draft created and sent to the Instrument-lead; PI; and SOT				
# DraftApproved: draft approved by Instrument lead; or Mission PI; or SOT				
# PUBLIC: created and public; waiting for DOI creation by the SPASE team				
# CiteAble: public and DOI created				
# *Note: When TS2 SPASE records are created the TS1 SPASE records are created from the TS2 records				
#				
# DOI				
# doi of spase record if it exists				
# url that is not a DOI is the link to the spase record; Doi creation in queue; when DOI is created that field will be updated.				
# COMMENTS
